

COVID-19

Should I be vaccinated?

The **vaccination** against COVID-19 is intended for **YOU**.

Why should I get vaccinated?

- To **avoid** the serious **consequences** of COVID-19
- To **protect myself** and to **protect others**
- To **return** as soon as possible to a **normal life**
- To **support the staff**

The choice to be vaccinated is yours.
The vaccine is free of charge.

For any further information, do not hesitate to ask your **attending physician**, pharmacist, **occupational health officer** for the staff, or any other **healthcare professional** you trust.

You can also visit the site jemevaccine.be which directs you to information that is available and scientifically validated.
